Aluminum Window Manufacturers Association

45 North Station Plaza, Great Neck, N.Y.

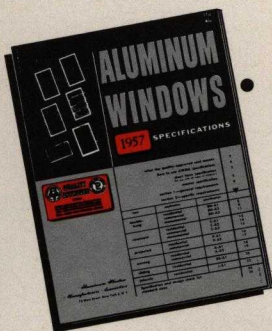

Use this Simplified Short Form Specification to assure *"Quality-Approved"* ALUMINUM WINDOWS on your next job...

All aluminum windows of the types and sizes shown on the drawings and to be furnished under this contract shall be manufactured by..... or..... or equal to conform to all requirements for "Quality-Approved" aluminum windows in the Aluminum Window Manufacturers Association Master Specification (choose the applicable designation(s) from the following:)

- DH-A1—Double-Hung (and Single-Hung) Windows for Residential-Type Buildings
- DH-A2—Double-Hung (and Single- and Triple-Hung) Windows for Commercial-Type Buildings
- DH-A3—Double-Hung (and Single- and Triple-Hung) Windows for Monumental-Type Buildings
- C-A1—Casement Windows for Residential-Type Buildings
- C-A2—Casement Windows for Commercial-Type Buildings
- C-A3—Casement Windows for Monumental-Type Buildings

- P-A1—Projected Windows for Residential-Type Buildings
- P-A2—Projected Windows for Commercial- and Monumental-Type Buildings
- A-A1—Awning Windows for Residential-Type Buildings
- A-A2—Awning Windows for Commercial- and Monumental-Type Buildings
- HS-A1—Horizontal Sliding (Single or Double Slide) Windows for Residential-Type Buildings
- VS-A1—Vertical Sliding Windows for Residential-Type Buildings
- J-A1—Jalousie Windows for Residential-Type Buildings

as published in Sweet's File, Architectural, 1957 edition with Addenda dated March 1, 1957, and available from the Aluminum Window Manufacturers Association, 45 North Station Plaza, Great Neck, N. Y. Erection, glass, glazing clips, glazing compound, glazing, caulking compound, caulking, grouting and cleaning-after-erection shall be by others.

FREE COPY of LONG FORM "MASTER" SPECIFICATION

Use of the "short form" specification is recommended wherever possible. It may be used for any type of aluminum window by merely inserting the specific type or types required.

Where a complete detailed specification is desired, Sections 1 and 2 of the "Master Specification" should be used. The complete 28-page Specification Book was published in the 1957 Sweet's Architectural File. Additional file copies with latest Addenda are available upon request. Write to the Aluminum Window Mfrs. Assn., 45 North Station Plaza, Great Neck, N. Y.

WHAT the "quality-approved" seal means to the building industry

The "Quality-Approved" Seal is a mark of quality. It assures windows—double-hung, casement, awning, horizontal sliding, vertical sliding, projected and jalousie types—that meet the specifications of the Aluminum Window Mfrs. Assn. These specifications and minimum structural standards covering quality of materials, construction, strength of sections and minimum air infiltration were established by the Association for the protection of all who specify, buy or use aluminum windows.

While the "Quality-Approved" Seal is a copyrighted emblem of the Association, its use is not limited to members. Any manufacturer whose windows, when tested by the independent Pittsburgh Testing Laboratory, meet all the requirements, can qualify for use of the "Quality-Approved" Seal.

THE FOLLOWING MEMBERS OF THE A.W.M.A. MANUFACTURE WINDOWS THAT HAVE BEEN TESTED AND APPROVED AS OF SEPT. 15, 1957

For latest up-to-date list of Approved manufacturers write the Association Headquarters

DOUBLE-HUNG DH-A1

QUALITY-APPROVED ALUMINUM WINDOW MANUFACTURERS — Continued

HORIZONTAL SLIDING WINDOWS HS-A1

Sliding Windows are classified into 2 groups according to maximum size tested and approved. Class I includes windows up to only 4'0" x 2'0". Class II includes windows of larger sizes.

Ceco Steel Products Corporation

5601 West 26th St., Chicago 50, Ill. (Sterling) Class II

Florida Windows, Inc.

1015 S.W. 60th Ave., West Hollywood, Fla. (SH and PH, Model 1) Class II

Primalum, Benada Div. of Textron, Inc.

Nesquehoning, Pa. (Series 200) Class II

Reynolds Metals Co. (Window Division)

2000 So. 9th St., Louisville, Ky. (Series 5100, 5200, 5700, 5800) Class II

Stanley Building Specialties Co.

1890 N.E. 146th St., North Miami, Fla. (Series 24) Class II

J. S. Thorn Company

8501 Hegerman St., Philadelphia 36, Pa. (Series A-300) Class II

Wisco Aluminum Corporation

3900 "A" St., Detroit, Mich. (Series 400) Class I

VERTICAL SLIDING WINDOWS VS-A1

Florida Windows, Inc.

1015 S.W. 60th Ave., West Hollywood, Fla. (Series 2)

JALOUSIE WINDOWS J-A1

Adams Engineering Co., Inc.

19300 Biscayne Blvd., Miami, Fla. (Series 5-A)

Florida Windows, Inc.

1015 S.W. 60th Ave., West Hollywood, Fla. (Type T, Model 3)

Stanley Building Specialties Co.

1890 N.E. 146th St., North Miami, Fla. (Series 10 and 11)

Truscon Steel Division, Republic Steel Corp.

Youngstown, Ohio (Series 100)

Vun-Russ Company, Inc.

1090 East 16th St., Hialeah, Fla. (Series 24)

Ware Laboratories, Inc.

3700 N.W. 25th St., Miami, Fla.
